

# 3M Scotch-Brite™ Everyday Clean Lint Roller

## Technical Data Sheet

Date: Feb 2023  
Supersedes: Feb 2010

### DESCRIPTION

**Scotch-Brite™ Lint Roller** is a product designed for removing lint, pet hair and other debris from clothing, upholstered furniture, and a variety of other surfaces.

The product is available as a finished product with a reusable handle, and as refill rolls.

A mini roller presentation is also available, with different color of handles.

### INTENDED USE

**Scotch-Brite™ Lint Roller** is used primarily for eliminating light solid debris (lint, hairs, dust....) from clothing or other soft, cloth surfaces, and for removing pet hair and other debris from upholstered furniture and bedding.

### PRODUCT ADVANTAGES

- Progressively perforated and overlapping tape sheets for easy removal.
- Ergonomic handle with a countoured shape
- Adhesive-free areas to help the user to remove used sheets and expose a clean one.

- High quality adhesive to optimize lint removal.

- Coreless winding technology of the lint tape, to minimize waste.

- Lightweight, reusable, and recyclable handles (if facilities exist. Check with local recycler)

### DIRECTIONS FOR USE

1. Remove the printed cover sheet and save for re-use.
2. Roll the tape across the surface to be cleaned. Use light pressure so that the tape roll turns freely.
3. When lint and other debris accumulate on the roll, remove the used sheet to reveal a fresh sticky sheet.

*\*To remove a used sheet:*

- *Hold the handle in your hand and carefully lift the top sheet with debris and unwind the sheet*

- *Fold the used sheet over onto itself to encapsulate the debris*

- *Press against the roll with your thumb, and tear along the perforation with your other hand, pulling the used sheet at a slight upward angle.*

4. When finished cleaning, replace the printed cover sheet on the tape roll to keep the top sheet sticky.

### SPECIFICATIONS:

Number of sheets:

✚ Standard roller: 30/56

✚ Mini roller: 30

Adhesion to steel: 20 oz/in (avg)  
Test Method PSTC-101

### Composition

○ Tape backing sheet are made of polypropylene film.

○ Adhesive is Scotch™ hot-melt rubber resin, formulated for an optimum balance of tack and adhesion.

○ Handle is made from polyethylene.

### DISPOSAL

Dispose of used tape with household trash. Handles can be recycled if facilities exist.

### COUNTRY OF ORIGIN

Tape made in Canada or Mexico for 3M.

Product assembled in Poland for 3M.
